

MOHAWK COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Adobe Photoshop Elements 7 INFO 10069

Assignment #1

10 marks

Part A

1. Create a **Greeting Card** using the **Create** Menu in Photoshop Element 7. Your Greeting Card must have all of the following elements:
 - a) The card must be 4x6 inches in size
 - b) Apply a theme to your card using one of the provided themes
 - c) Choose any layout for your card using one of the provided layouts
 - d) Add any images of your choice to the greeting card as determined by your layout choice.
 - e) Using the text tool, add a text layer message to your card.
 - f) Save your file as **yourname_card.jpg**

Part B

2. Using 5 images of your choice, use the **Slideshow** editor feature in Photoshop Elements 7 to create your own **multimedia slideshow**. Your slideshow should contain the following elements:
 - a) Set your static (image) transitions to 4 seconds and your in-between transitions to 2 seconds.
 - b) Set all the transitions to be random so that each one of different
 - c) Apply at least one shape graphic and one text layer to your slideshow from the provided shapes. You may use more if you choose to.
 - d) Add an audio track to your slideshow using either one of the provided audio files or you can use any music of your choice.
 - e) Apply the Pan and Zoom feature to at least 2 of the image in your slideshow
 - f) Once completed, output your slideshow so that it is saved as a WMV (Windows Media Video) file and call it **yourname_slideshow.wmv**
